Luminar (Dark Alert)

- Solução de proteção cibernética que monitora a Deep e Dark Web

- Ótima solução para análise de riscos, identificação de hackers e pessoas planejando ações contra a organização

- Também é utilizada para identificar se dados da organização estão sendo compartilhados pela DarkWeb, identificar se nomes, e-mails e informações ligadas a empresa estão sendo vendidos em Blackmarkets...

- Inclui relatórios customizados de inteligência, que chegam mensalmente e são integrados dentro da solução
